PRODUCT DESCRIPTION

Enhance your brand visibility with the Casita® Header, the perfect accessory for your 10ft Casita Canopy Tent Frame. The Casita Header is designed to seamlessly attach to a variety of tent frames, including the 10ft One Choice®/Standard Steel, One Choice®/Standard Aluminum, Casita Air, and Heavy Duty Tent frames. Its adjustable clamp system fits round, square, and hexagon-shaped legs up to 48mm in diameter, providing broad compatibility and a secure installation.

Crafted with the same durable 100% epoxy fiberglass material used in our Falcon and Sunbird flag poles, the Casita Header ensures superior strength and resilience for outdoor use. The hardware kit includes a convenient oxford travel bag for easy storage and transport.

The Casita Header displays single-sided mesh fabric graphics, making it ideal for high-impact messaging. The graphic measures 118.11" wide by 31.5" high, and when fully assembled, the display stands at 118.11" wide by 59" high — a striking addition to your event setup.

- Features:
- Compatible with round, square, and hexagon tent legs (up to 48mm diameter)
 - Fits 10ft One Choice®/Standard Steel, One Choice®/Standard Aluminum, Casita Air, and Heavy Duty frames
 - Constructed from 100% epoxy fiberglass for exceptional durability
 - Displays single-sided mesh fabric graphics
 - Includes oxford travel bag for hardware transport
 - Sandbags, water bases, or ground stakes are recommended with use of header graphic

*Note: 10ft tent frame and tent graphics are not included
