

LIGHT RUNNER - MODULAR RGB LIGHTBOX SYSTEM 10FT CENTER LIGHTBOX KIT

LIGHT RUNNER MODULAR DISPLAYS

PRODUCT CODE: LTR-10CLB

PRODUCT DESCRIPTION

The Light Runner – Modular RGB Lightbox System 10ft Center Lightbox Kit transforms your standard 10ft x 8ft Light Runner display by adding a narrow backlit lightbox to the center of the frame while leaving open spaces on the left and right sides for merchandising accessories. This versatile configuration is ideal for retail displays, product demonstrations, and branded environments, providing dedicated areas for shelving, hanging rods, monitor mounts, and other display accessories without sacrificing a vibrant illuminated graphic. The kit includes LED edge lighting to illuminate SEG backlit fabric graphics, creating bright, eye-catching visual impact. The left and right vertical lightbox profiles also feature the signature RGB perimeter lighting, seamlessly matching the appearance of the standard Light Runner frame for a cohesive, modern presentation. The kit includes all required frame components, LED edge lighting, and a durable travel bag for convenient storage and transportation.

GRAPHIC FINISHING

12mm x 3mm silicone beading is sewn around the perimeter of the fabric graphic (Silicone Edge Graphic - SEG). Silicone beading is hidden from view once installed. A pull tab is added to a bottom corner to help with graphic removal.

DISPLAY CONSTRUCTION

White PVC frame with built in RGB lighting around front perimeter of frame. Includes aluminum support rods
