

MESH FLAGS

Product Description Our mesh flags are dye sub printed on high quality mesh fabric material and are perfect for displaying on standard flag poles or even wall mounted. The mesh fabric is hemmed around the perimeter with 1 brass #2 grommet in each of the left corners. There is 1" of white material on the left side of the flag that is reinforced for the grommets. These rectangle mesh flags are available in three standard sizes: 3' W x 2' H, 5' W x 3' H, and 6' W x 4' with single and double sided graphic options. Our inks heavily saturate the material to create a "bleed-through" effect for our single-sided prints, and double-sided prints are finished with a silver-gray blocker that lays between two single sided prints.
