

SHOWBIRD 65 ROOM BRACKETS

SHOWBIRD 65 MODULAR LIGHTBOX
PRODUCT CODE: SB65-DOOR-B

PRODUCT DESCRIPTION

Modular Plastic Brackets for Attaching Rooms to Backwalls

The Showbird 65 Room Brackets are purpose-built plastic mounting accessories designed to seamlessly attach a Showbird 65 modular room to a backwall display structure. These low-profile, high-strength brackets provide flexible installation points, allowing the room to be mounted at any position along the backwall frame—enabling endless layout customization without structural compromise.

Constructed from durable grey injection-molded plastic, each bracket securely clamps over the frame edge, aligning the room to the desired location without the need for permanent fixtures or fixed slots. This modular design empowers designers and installers to adjust room placement freely, optimizing both functionality and flow in any trade show or exhibit environment.

Key Features:

- Attaches Showbird 65 rooms to any point on a backwall frame
- Provides flexibility for room positioning in display layouts
- Compatible with Showbird 65 frame systems
- Constructed of sturdy grey plastic for lightweight durability
- Sold individually for tailored configuration needs

Add versatility and adaptability to your display system with the Showbird 65 Room Brackets—an essential accessory for modular booth planning and dynamic space utilization.
