

# SHOWBIRD 65 DOOR LOCK

SHOWBIRD 65 MODULAR LIGHTBOX

PRODUCT CODE: SB65-DOORKEY

## PRODUCT DESCRIPTION

Combination Locking System for Showbird 65 100x240 Frame Doors  
The Showbird 65 DOOR Lock is a secure and easy-to-install locking mechanism designed exclusively for Showbird 65 doors built into 100x240 frames. Engineered to provide privacy and controlled access within enclosed booth spaces, this accessory is ideal for meeting rooms, storage areas, or staff-only enclosures constructed from the Showbird 65 system.

The lock features a 3-digit combination code, eliminating the need for keys while maintaining dependable security. It is designed to sandwich between the vertical profiles of the door and adjoining frame, allowing for a discreet and flush-mounted installation. The included latch and lock components ensure a clean closure with reliable engagement every time the door is shut.

### Key Features:

- Compatible only with Showbird 65 doors on 100x240 frames
- 3-digit combination code lock for keyless security
- Clean, integrated install between vertical frame profiles
- Provides secure closure for modular room enclosures
- Ideal for use in private booth rooms, storage areas, and VIP spaces

Add peace of mind and professional-grade functionality to your Showbird 65 environment with the Showbird 65 DOOR Lock—a sleek and secure solution for locking modular lightbox doors.

## CONNECTOR CONSTRUCTION

Aluminum and steel
