

SHOWBIRD 65 DOOR KIT

SHOWBIRD 65 MODULAR LIGHTBOX
PRODUCT CODE: SB65-DOOR

PRODUCT DESCRIPTION

Aluminum Door Frame Accessory for Showbird 65 100x240 Displays
The Showbird 65 DOOR KIT is a purpose-built aluminum accessory designed to transform any Showbird 65 100x240 frame into a functional doorway—ideal for creating private, enclosed spaces within your modular lightbox structure. Specifically engineered for use on the sides of rooms constructed with Showbird 65 100x240 frames, this kit enables seamless integration of a swing-style door without compromising the clean lines and modularity of your setup. The DOORKIT includes a reinforced aluminum door frame and integrated hinge system, allowing smooth operation and reliable alignment. A low-profile caster wheel is included and mounts at the base of the door to ensure effortless swinging motion and frame protection. This kit is not compatible with other frame sizes and is intended exclusively for use with vertical Showbird 65 100x240 room panels.

Key Features:

- Compatible only with Showbird 65 100x240 frames
- Enables functional doorway for modular Showbird 65 rooms
- Includes aluminum top and bottom connectors for mounting
- Integrated hinge slots and bottom caster for smooth door swing
- Mounts only on side panel frames within a room configuration

Add privacy, accessibility, and architectural flexibility to your Showbird 65 display layout with the Showbird 65 DOOR KIT—an essential solution for creating enclosed, high-impact branded environments.
