PRODUCT DESCRIPTION

The Showbird 65 180° Connector - Foot is a precision-engineered aluminum base designed to securely connect two Showbird 65 lightbox frames side by side in a seamless 180° straight-line configuration. Crafted from durable, high-grade aluminum, this connector foot provides superior stability and alignment for your modular display setup.

Featuring dual vertical mounting brackets, the connector locks into the base channels of adjacent Showbird 65 frames, ensuring a tight and flush connection while maintaining the sleek aesthetic of the lightbox system. Ideal for creating extended backwalls or inline trade show exhibits, the foot allows for quick tool-free installation and disassembly.

Key Features:

- Compatible with Showbird 65 lightbox frames
- Creates a 180° straight-line frame connection
- Constructed from durable aluminum with a sandblasted finish
- Includes dual mounting brackets for secure frame attachment
- Ideal for inline or extended modular displays

Enhance the structural integrity and visual continuity of your display with the Showbird 65 180° Connector - Foot—built for strength, simplicity, and professional performance.
