

SHOWBIRD 65 90° CORNER CONNECTOR - FOOT

SHOWBIRD 65 MODULAR LIGHTBOX
PRODUCT CODE: SB65-FOOT-90

PRODUCT DESCRIPTION

The Showbird 65 90° Corner Connector - Foot is a precision-machined aluminum base designed to join two Showbird 65 lightbox frames at a clean 90-degree angle. Engineered for strength and visual continuity, this foot connector allows for the creation of corner booth layouts and L-shaped display configurations with professional polish and structural reliability.

Featuring dual vertical mounts oriented at a right angle, the connector securely fastens into the bottom channels of two intersecting frames—providing a flush, gap-free corner connection that enhances both stability and aesthetics. Its durable aluminum construction supports heavy-duty use on the trade show floor while ensuring easy tool-free setup.

Key Features:

- Joins two Showbird 65 lightbox frames at a 90° corner
- Precision-welded aluminum foot with sandblasted finish
- Dual mounting brackets for secure, stable frame attachment
- Enables seamless L-shaped and corner display configurations
- Tool-free installation for quick setup and breakdown

Achieve clean, professional corner displays with the Showbird 65 90° Corner Connector - Foot—designed for modular flexibility and architectural integrity.
