

## 19.7ft X 7.4ft. SEGO Modular Lightbox

The SEGO 19.7ft x 7.4ft Modular Lightbox Display combines sophistication with seamless functionality, making it a standout solution for high-impact visual displays in indoor environments. This expansive display is crafted with a robust, 120mm wide silver anodized aluminum extrusion profile, ensuring both stability and an elegant, modern aesthetic. The tool-free frame assembly simplifies setup, allowing for effortless installation at trade shows, retail spaces, and corporate events.

Featuring LED light strips mounted along the top and bottom, this display provides consistent, vibrant backlighting to enhance the custom dye-sublimated fabric graphics, finished with precision Silicone Edge Graphic (SEG) inserts. The SEGO display is modular by design, allowing it to be easily connected with other SEGO frames to create custom configurations that suit any space. For added convenience, travel bags are included for safe, organized transportation.

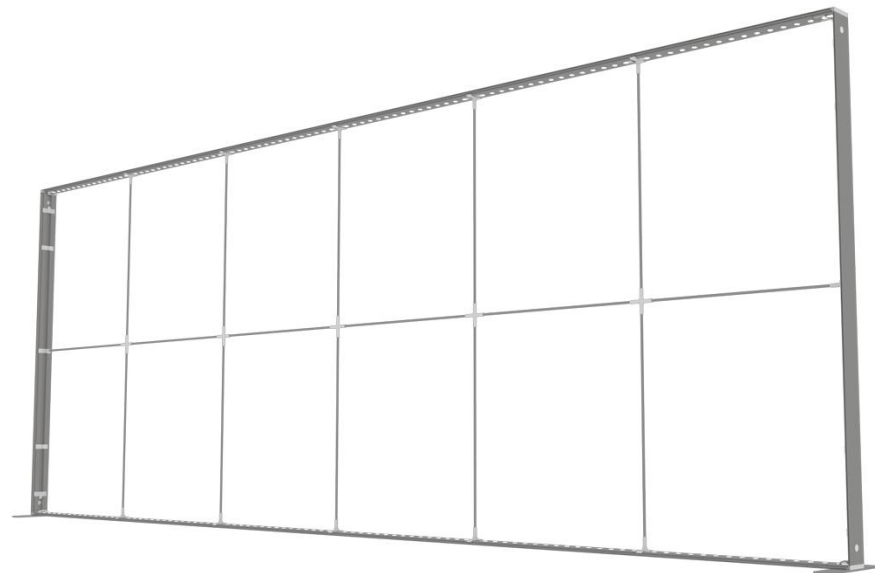

Bring your brand to life with the SEGO 19.7ft x 7.4ft Modular Lightbox Display — a professional, easy-to-assemble solution designed to captivate your audience.

## OVERVIEW

- 20ft wide SEGO lightbox display
- 120mm wide silver aluminum profile
- Double sided backlit SEG graphic display
- Tool free frame assembly w/draw latch frame connection
- LED lights are pre-installed onto frame profiles
- LED lights are only on the top and bottom profiles. They do not run vertically.
- LED lights and transformer are UL listed
- Frames cannot be turned on their side due to foot connections and lighting.
- SEGO is only available as a backlit product
- Magnetic LED light wiring connection
- Includes 4 travel bags with black foam insert. Soft foam insert has cutouts to keep pieces in place when in storage
- Compatible with most standard SEGO connectors with the exception of the Bridge Connector
- Requires 4 power outlets (1 per transformer)
- Can be converted to 10ft display by removing middle horizontal profiles and support struts
