

SEGO® OUTSIDE L CONNECTOR

SEGO MODULAR LIGHTBOX DISPLAY
PRODUCT CODE: SEGO-OLCON

PRODUCT DESCRIPTION

The Outside L Connector allows you to join two SEGO® lightbox frames at a 90-degree outside corner. This configuration is often used when creating booth layouts with exterior corners, such as:
Outer corners of an L-shaped booth

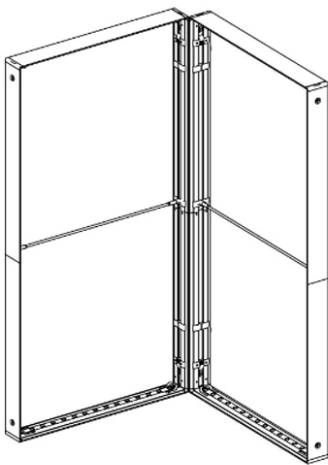

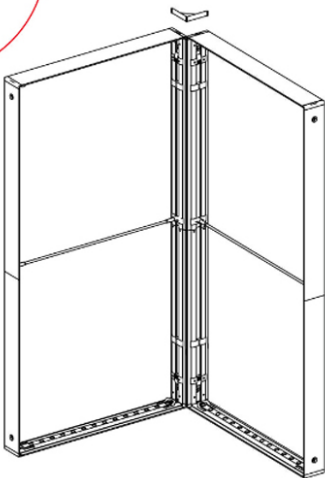

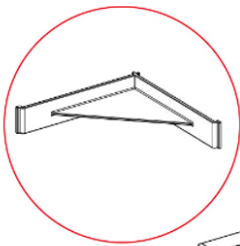

Connecting returns that extend away from the main structure
Adding dimensionality or architectural interest to an exhibit setup
Unlike the Inside L Connector, which pulls frames together on the inside of a corner, the Outside L Connector joins them on the exterior angle.

CONNECTOR CONSTRUCTION

Clear Plastic

REQUIRED DISPLAYS/CONNECTORS

(qty 2) SEGO-OLCON	(qty 2) SEGO® Frames (Any height)*
