

SEGO® + QSEG STRAIGHT BASE CONNECTOR

SEGO MODULAR LIGHTBOX DISPLAY
PRODUCT CODE: SEGO-QSEG-SB-CON

PRODUCT DESCRIPTION

The SEGO® + QSEG Straight Base Connector is a specialized accessory designed to securely connect SEGO Modular Lightbox Displays and QSEG Fabric Frames in a linear configuration. This connector enables the use of shared bases between adjacent frames, offering greater stability while maintaining a clean, minimal footprint. Ideal for trade shows, retail environments, and exhibit displays, this connector allows seamless side-by-side alignment of frames to create continuous backwalls or modular inline displays.
